PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in Oracle Applications DBA, automation, and full-stack web development. Strong foundation in Python, networking, cloud computing, and enterprise infrastructure. Experienced with **Oracle EBS R12, Cisco networking, AWS, GCP, Linux, Docker, Jenkins, and CI/CD**. Skilled in infrastructure automation, troubleshooting, and scripting, with a growing focus on **Artificial Intelligence and enterprise cloud solutions**.

TECHNICAL SKILLS

Programming: Python, PL/SQL, HTML5, CSS3, Tailwind CSS, Shell Script, JavaScript
Database & Oracle: Oracle EBS R12, Oracle SQL, PL/SQL, RMAN, Data Guard, Flashback Database, Alert Log Monitoring, Oracle SQL Developer
Networking: TCP/IP, OSI Model, IPv4/IPv6, Subnetting (VLSM, CIDR), Static Routing, OSPF, RIP, EIGRP (Concepts), STP, ACLs, ARP, ICMP, DHCP, SLAAC, Wildcard Masks
Cisco: Cisco IOS CLI, Cisco Packet Tracer, Router & Switch Configuration, Network Troubleshooting, Connectivity Testing
Cloud & DevOps: AWS, GCP, Docker, CI/CD, Linux (Ubuntu), Git, GitHub, Vercel
AI & GenAI: LLM Fundamentals, Generative AI Tools, AI-based Process Automation, Prompt Engineering
Tools & Platforms: VS Code, Arduino, Oracle SQL Developer, Cisco Packet Tracer

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions (CTS)

Oct 2025 – Apr 2026

Oracle Apps DBA

- Managed Oracle EBS R12 database administration, including backup, recovery, and maintenance using RMAN.
- Automated database operations through Shell scripting, reducing manual DBA effort by **30%**.
- Administered Oracle EBS Application and Database tiers, including cloning, patching, and configuration management.
- Implemented Flashback Database and Disaster Recovery (DR) solutions to support business continuity and RTO/RPO objectives.
- Applied Generative AI concepts to automate Oracle Apps operational workflows.

Freelance Web Developer

2024 – 2025

Aesthete Canvaz Portfolio Website

- Designed, developed, and deployed a responsive portfolio website using HTML5, Tailwind CSS, and JavaScript.
- Managed version control and production deployment using GitHub and Vercel.

Technical Training & Hands-on Labs

Networking & Cloud Fundamentals | 2026

- Designed and configured Cisco Packet Tracer network topologies using IPv4/IPv6, static routing, and Cisco IOS CLI.
- Configured routers, switches, STP, Root Bridge election, Port Cost, and Layer 2 redundancy.
- Implemented Standard and Extended ACLs with wildcard masks and validated traffic using Cisco diagnostic commands.
- Performed network troubleshooting using **ping, traceroute, and Cisco IOS show commands**.
- Applied networking concepts including TCP/IP, OSI, Subnetting (VLSM/CIDR), ARP, ICMP, NDP, TCP/UDP, RIP, OSPF, and EIGRP.
- Gained foundational knowledge of AWS and GCP services, including compute, storage, networking, and cloud architecture.

PROJECTS

Creators Career Development Platform

HTM, CSS, JavaScript, Node.js, MongoDB | 2024-2025

- Built a full-stack web platform enabling creators to build customizable profiles, showcase projects, and access career development resources with a responsive, accessible UI.
- Designed RESTful APIs with Node.js and MongoDB to handle dynamic content, user profiles, and project data at scale.

Oracle Alert Log Monitoring Automation

Shell Script, Oracle DB | 2025

- Engineered an automated Shell script solution for real-time Oracle database alert log monitoring, significantly reducing error detection time and manual DBA intervention.

Responsive Full-Stack Web Application

HTML5, CSS3, JavaScript | 2023–2024

- Developed a cross-device responsive web application with focus on accessibility, clean code architecture, and performance optimization during full-stack training.

Autonomous Line Follower Robot

Arduino, C++, IR Sensors | SIH Hackathon 2023–2024

- Designed and demonstrated an autonomous line-follower robot using Arduino microcontrollers and IR sensors at the South Indian Hackathon (SIH), showcasing embedded systems and real-time control expertise.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Technology

2022 – 2025

KG College of Arts & Science, Coimbatore

Higher Secondary Certificate (HSC)

2021 – 2022

CMS Matriculation Hr Sec School, Coimbatore

Secondary School Leaving Certificate (SSLC)

2019 – 2020

CMS Matriculation Hr Sec School, Coimbatore

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Database Administration (19c & 21c) – [Link](#)
- Oracle Apps DBA (EBS R12.2) — [Link](#)
- PL/SQL Programming — [Link](#)
- Oracle SQL — [Link](#)
- CCNA-Level Networking Fundamentals – Cisco IOS, IPv4/IPv6, Routing, Switching, STP, ACLs & Cisco Packet Tracer
- AWS & Google Cloud Platform (GCP) Fundamentals
- GenAI & LLM Fundamentals — Cognizant Technology Solutions (Internal Upskilling Program)
- South Indian Hackathon (SIH) 2023–2024 – Developed an Autonomous Line Follower Robot using Arduino and IR Sensors.
- Freelance Web Development (2025) – Designed and deployed the [Aesthete Canvaz Portfolio Website](#) on Vercel.
